

IL-78

PLASTIC MODEL KITS
LIMITED EDITION
CAT.NO.72033

SPAN : 704 mm
LENGTH : 660 mm
PARTS : 524 pieces
SCALE:1/72

Military-transport aircraft IL-76 was built in Ilyushin Experimental Design Bureau in 1971. The chief designer of the aircraft is R.P. Papkovsky. In 1974 IL-76 went through the series of tests and was adopted for armament. On the basis of military-transport aircraft a lot of various aircraft of special use are built. Several planes were re-equipped into air command units IL-82, the flying hospital IL-76MD "Scalpel-MT" was built. In 1983 for testing the fighting laser and for studying the distribution of rays in the upper layer of the atmosphere, the version A-60 was built. On the basis of IL-76, the fuelers IL-78 and IL-78M were built and well as the aircraft of radio supervision A-50. In total around 950 aircraft IL-76 of all modifications were built, over 100 of which were sent for export.

Военно-транспортный самолет Ил-76 был построен в ОКБ Ильюшина в 1971 году. Главный конструктор самолета Р.П. Папковский. В 1974 году Ил-76 прошел весь комплекс испытаний и был принят на вооружение. На базе этого транспортного самолета построено множество различных самолетов специального назначения. Так несколько самолетов было переоборудовано в воздушные командные пункты Ил-82, был построен летающий госпиталь Ил-76МД "Скальпель-МТ". В 1983 для отработки боевого лазера и для исследования распространения лучей в верхних слоях атмосферы был построен вариант А-60. На базе Ил-76 созданы самолеты заправщики Ил-78 и Ил-78М, а также самолет радиолокационного дозора А-50. Всего выпущено около 950 самолетов Ил-76 всех модификаций, более 100 из которых поставлено за рубеж.

The model is executed on technology short run and is intended only for experienced modelers
Word-wide distributor for AMODEL kits: IBG, Warsaw, Poland
Fax: (4822) 842-56-29; E-Mail: ibgsc@ibg.com.pl

Модель выполнена по технологии short run и предназначена только для опытных моделистов
Дистрибутор моделей AMODEL: IBG, Варшава, Польша
