Use blocks to hold wings level while cement dries. Utiliser des blocs pour maintenir les ailes soulevées au fur et à mesure que le ciment sèche.  
 Tragflächen mit Blöcken ausrichten, während der Zement trocknet. Utiliza bloques para mantener las alas niveladas mientras se seca el cemento.  
 Använd block för att bibehålla vingar när limmet torkar.

For experienced modellers who may wish to add them to their model, the positions of the bracing wires and control cables are indicated below.  
 Les positions des fils tenseurs et des câbles de commande sont indiquées ci-dessous pour les modélistes expérimentés qui voudraient les ajouter à leur maquette.  
 Für erfahrene Modelbauer, die sie zu ihrem Modell hinzufügen möchten, sind die Positionen der Drahtverspannung und Steuerkabel unten angegeben.  
 Para modelistas experimentados que deseen incorporarlas a su modelo, a continuación se indican las posiciones de los alambres de sujeción y cables de control.  
 Nedan anges hur erfarna modellbyggare kan placera ut staglinor och styrlinor på modellen.
