Made exclusively for
"Bassin Maquette - France"

ÉCHELLE
SCALE

1/72

ENVERGURE \ SPAN: 167 mm
LONGUEUR \ LENGTH: 272 mm
PARTIES \ PARTS: 200 pièces \ pieces

MAQUETTE A ASSEMBLER \ ÉDITION LIMITÉE
PLASTIC MODEL KIT \ LIMITED EDITION

FR Le Mirage 4000 fût développé en parallèle au Mirage 2000 avec la même formule aile delta & commandes de vol électriques . Par contre c'est un avion biréacteur de la même classe que le F-15 américain avec des capacités de manœuvrabilité, d'emport de charges et de rayon d'action remarquables . Le premier vol a lieu en Mars 1979 et passe Mach 2 au bout du sixième vol . Ni la France ni aucun autre pays ne commandera ce superbe avion et il laissera la place pour le Rafale, de conception bien plus avancée

EN The Mirage 4000 was designed in the same time as the lighter Mirage 2000 using the same Delta wing & Fly by wire configuration. First flight was done March 1979 and it proved to be an outstanding heavy fighter-bomber in the same class of the USAF F-15 with 8t external weapon and 2000km combat radius. None sales to France or any foreign country signed the end of this superb jet plane and it leave place to the much more advanced Rafale .
