P-63A/C Kingcobra

1/144 SCALE MODEL CONSTRUCTION KIT

Ready to assemble scale models kit.

Contains part for one model.

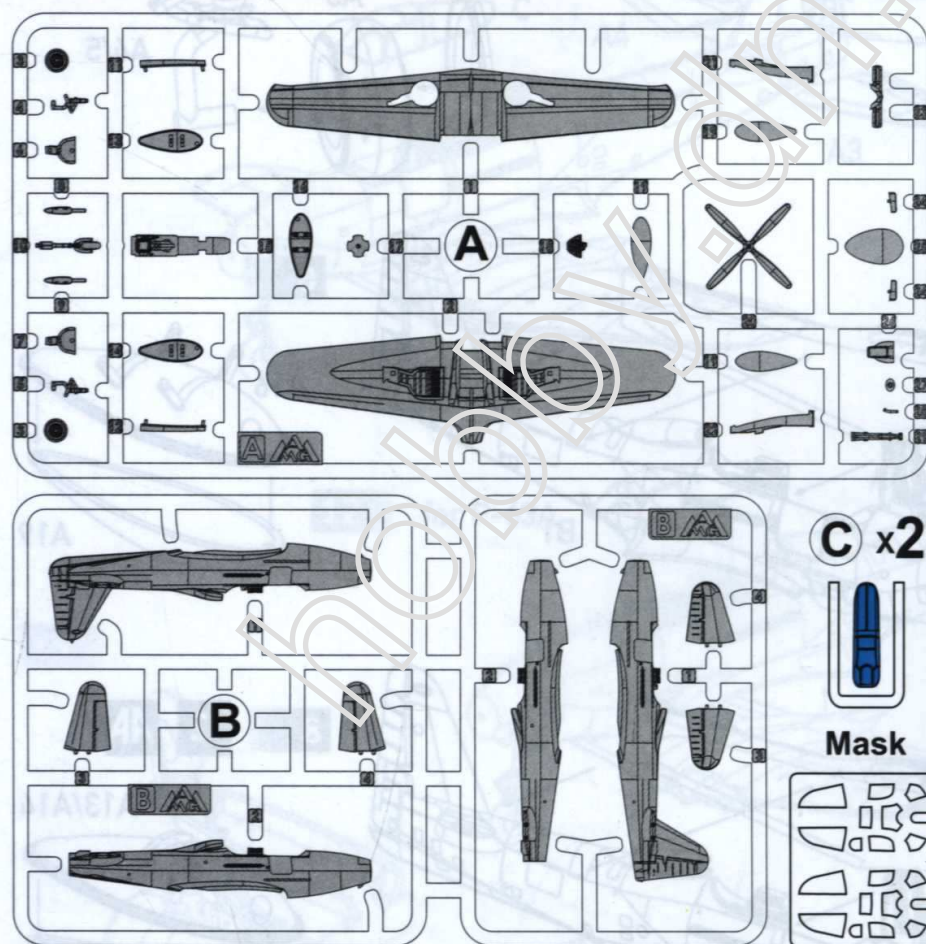

Model length: 52 mm

Wingspan: 96 mm

Plastic parts: 76

The Bell P-63 Kingcobra is an American fighter aircraft developed by Bell Aircraft in World War II from the Bell P-39 Airacobra in an attempt to correct that aircraft's deficiencies. Although the P-63 was not accepted for combat use by the United States Army Air Forces, it was adopted by the Soviet Air Force. The French Air Force used Kingcobra in the First Indochina War. The US Air Force used modernized Kingcobra as targets (Operation Pinball). After the end of the Second World War, several aircraft were sold to private owners and used in races.
