

DW 48003

TP-63E Kingcobra

1/48 SCALE MODEL CONSTRUCTION KIT

Ready to assemble scale models kit.

Contains part for one model.

Model length: 208 mm

Wingspan: 244 mm

Plastic parts: 136

Photoetched parts: 34

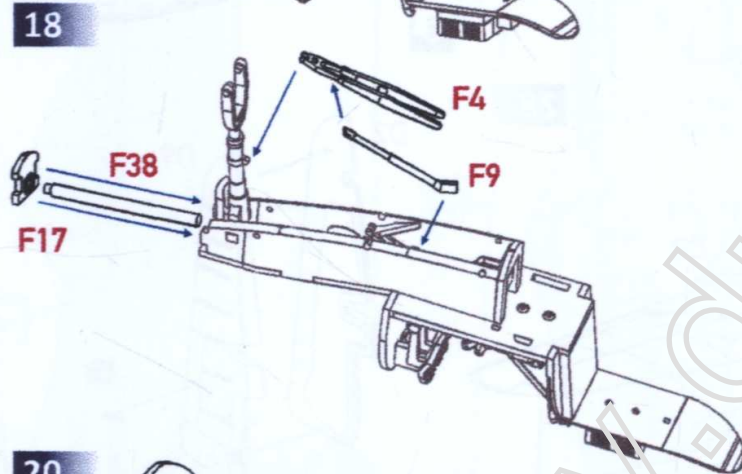

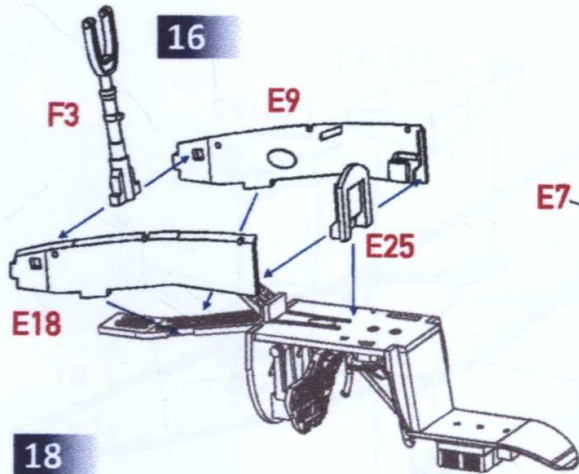

An entirely different two-seater was produced by the Bell company for internal use. Two P-63F-1s were modified by Bell with a separate observer seat in the rear fuselage, located behind the engine and mounted under a separate canopy. A probe was mounted which extended through the spinner, and to make space for the observer the radio equipment had to be moved forward into the armament bay. The aircraft carried the civilian registrations NX41963 and NX41964.
